

## Project Transformation 2011

Once again this summer, FUMC Whitesboro is a partner church with Project Transformation. Project Transformation is a non-profit organization that engages young adults in leadership and ministry through serving children and youth in low-income neighborhoods. In the summer, Project Transformation serves over 800 children through 9 summer day camps. The programs offer children a fun, safe environment where they connect with positive role models. The programs focus on developing the mind, body, and spirit.

The summer day camp in this area is hosted by Trinity UMC in Denison. Ten interns will work with over 100 children during June and July. Full sponsorship of an intern is \$1500. **The April second mile offering will go toward sponsoring an intern.**

During the summer, we will provide 2 dinners for the 10 interns that are serving at Trinity UMC. The interns stay at Austin College where the meals will be delivered. Volunteers are encouraged to stay and share the meal with the interns. It is an inspiring experience.

Our church will also provide volunteers to read with the children at the summer day camp at Trinity UMC. Sign-ups will be held closer to the week that we will be volunteering.
